For democracy and human dignity

FIZ Karlsruhe supports calls for the protection of social values

Over the last few days, people have taken to the streets in many German cities and demonstrated emphatically that they consider democracy, human dignity and the rule of law to be non-negotiable fundamental values of our society. FIZ Karlsruhe supports this position and the call to protect the core of our constitution and our social values from attack. We therefore endorse the declaration of the Leibniz Association.

FIZ Karlsruhe has established in its values that we respect and value people in their diversity. We have an open-minded attitude at our institute. Employees from 24 nations with a wide variety of backgrounds work and conduct research here. We see this plurality and diversity as a strength and enrichment of our work and living environment. It ensures our success today and in the future.

You can find out more about our mission statement, our vision, our mission and our values here.

.....
FIZ Karlsruhe – Leibniz Institute for Information Infrastructure is one of the leading addresses for scientific information and services and a member of the Leibniz Association. Our core tasks are to provide science and industry with professional research and patent information and to develop innovative information infrastructures, with, for example, a focus on research data management, knowledge graphs and digital platforms. To this end, we conduct our own research, cooperate with renowned universities and research associations and are internationally and interdisciplinarily networked. FIZ Karlsruhe is a non-profit limited liability company and one of the largest non-academic institutions of its kind. For more information, please visit www.fiz-karlsruhe.de/en
